

Reckitt/Mead Johnson Nutrition cordially invite you to attend an educational program:

Extending Neonatal Intensive Care Beyond the NICU

Date:

Sunday, December 4, 2022

Time:

12:15 PM - 1:15 PM

Location:

Gaylord National Resort & Convention Center

Room Name:

Maryland Ballroom C

Registration:

To register for this event, please scan this QR code or visit the link below:

www.mjnportal.com/registration

Program ID: 28557

Registration will be on a first come, first serve basis. Lunch will be served. Should you have any questions, please do not hesitate to contact Morgan Braun at mbraun@pvaluebureau.com.

Meeting Objectives:

1. To review current data on NICU utilization rates on a global scale
2. To review current trends in discharge resources and short-term outcomes of former preterm neonates
3. To demonstrate the Firstday Healthcare remote monitoring and management platform and its use as a NICU replacement tool
4. To review ongoing studies of the platform and propose potential future collaborative studies

Speaker:

Ross Sommers, MD
Neonatologist
Founder, Firstday Healthcare
West Palm Beach, FL

Speaker Bio:

Dr. Ross Sommers is the founder of Firstday Healthcare. He is a pioneer in post-acute care Neonatology, an emerging field where children's hospital-based intensive care physicians utilize modern digital health tools combined with in-home visits by care providers to manage post-acute patients in the comfort of their homes. His platform allows patients to be safely discharged home earlier with reduced risk of readmission as they transition to office-based pediatric practices.
