

# Bringing WGS into your NICU: Tools to support implementation

## ***Who should attend this session?***

Healthcare providers, clinical staff and hospital administrators interested in WGS implementation in their NICU/PICU.

### **Speakers**

#### **Kristen R. Suhrie, MD**

Associate Professor of Clinical Pediatrics and Medical and Molecular Genetics, Director, Perinatal Genetics, Riley Children's Health Indiana University School of Medicine

#### **Monica Hsiung Wojcik, MD, MPH**

Director, Neonatal Genomics Program; Newborn Medicine Medical Director, Maternal Fetal Care Center; Medical Director, Manton Center Gene Discovery Core; Assistant Professor of Pediatrics, Harvard Medical School

### **Learning Objectives**

- Review the current landscape of WGS in acutely ill infants.
- List the process components that will lead to successful WGS implementation in a NICU setting.
- Recognize barriers which could impact equitable access to care and available tools to mitigate these barriers.
- Summarize best practices for informed consent, report interpretation and continuing education.

***Virtual Symposium  
Monday, December 11<sup>th</sup>  
12:15-1:15 pm EST***
